

Advance-Nilfisk Part

Advance-Nilfisk Part - Imagine how long and tedious it would be to clean-up after a party, without help from machines. Not too long ago, the dirt from carpets and upholstery had to be beat out of them by hand; brushes, cleaning cloths and brooms were the best cleaning products back then.

P.A. Fisker, the man who established Nilfisk-Advance, was actually an electrical engineer who loved working with electrical motors. Starting the company in the year 1906, he began to make motors to drive machine tools, coffee grinders, drills and fans. Mr. Fisker's dream from the beginning was to have a worldwide company advertising products globally.

The Nilfisk C1 was a remarkable breakthrough for the cleaning industry. This ground breaking vacuum cleaner, invented by Mr. Fisker, weighed only 17.5 kilos and can be operated by a single individual. This invention came in a time where other cleaning equipment were huge and required at least 4 operators, thus, the Nilfisk C1 changed everything and evolved the way we clean forever. The brain behind these very first cleaning machines remains unparalleled. Cleaning equipment offer an excellent solution to an ongoing problem; things get dirty and should be cleaned regularly, without a lot of effort.

Slowly but steadily, Nilfisk-Advance developed through the decades. During the nineteen eighties, this expansion really happened when the company became a part of the NKT Group. Their new owners' ambition and concentration made Nilfisk-Advance take a huge leap ahead within the business, aiming to be among the largest global players in the market of professional cleaning machines. Nilfisk-Advance is currently located in every part of the world by steadily obtaining lots of small companies in order to grow their product selection and presence in new markets. They are really proud to present various cleaning solutions to meet each need.
