

Ingersoll Rand Forklift Part

Ingersoll Rand Forklift Parts - Offering products, solutions and services so as to increase the productivity and to ensure efficiency in industrial, commercial and residential environments, Ingersoll Rand is very proud provider of products that help enhance the security, health, safety and comfort of people all around the world.

From their Climate Solutions division comes a product line of energy efficient HVACR solutions. The Thermo King is the leading transport temperature control, while Hussman makes food merchandising and refrigeration solutions. Trane is a trusted provider of energy efficient heating ventilation and air conditioning systems, contracting and building parts support, advanced controls and services used for both residential homes and commercial buildings.

The Industrial Technologies sector of Ingersoll Rand provides products and solutions to improve operations, energy efficiency and productivity for their clients. The range of products in their line consist of: tools and pumps, and material fluid handling systems to complete compressed air systems. They have even developed Club Car, the international leader in utility and golf vehicles designed for companies and people.

Brand names like for instance Trane and Schlage deliver residential solutions which offer safety, efficiency and comfort to home owners across North America. Their innovative products consist of mechanical and electronic locks, indoor air quality solutions, air conditioning and heating systems, remote home management, portable security systems and advanced controls.

Ingersoll Rand' Security technologies offer products which ensure safe, productive and secure environments. This division's market leading products include floor and door closers, portable security devices, exit devices, biometric and electronic access control systems, cabinet hardware, steel doors and frames and locks, locksets and decorative hardware. Recognized brand names like Schlage even provide time, attendance and personal scheduling systems.
