

## Meritor Parts

Meritor Part - The Meritor Company is a leading global dealer built upon 100 years of custom of quality and service. Meritor focuses on integrated systems together with a range of modules and parts to the original machinery makers and aftermarket equipment in the transportation and industrial sectors.

Meritor values the wishes of all their clients to ensure their success while priding itself in the company's unique energy and feels this output of energy to be their competitive advantage in their worldwide operations. Meritor starts with a culture which values diversity of individuals and their broad thought processes. Operating in 19 nations and employing more than 11,200 individuals, Meritor promotes innovation and collaboration amongst a team of experienced experts.

By just employing future focused people, Meritor strongly thinks these top-caliber individuals will be able to rapidly adapt to changing surroundings and demonstrate the performance and commitment required in order to achieve results in the competitive materials handling trade. The company empowers their teams to make sound business decisions so as to improve the overall success of the business. In return, Meritor provides all their workers various possibilities for personal and professional development.

Their Advanced Engineering team is at the forefront of parts and system engineering that include drivelines, axles, suspension and braking systems for heavy duty and medium trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is growing. They launched a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives which represent the entire Asia Pacific region. This particular team is also responsible for supporting the requirements of all their global engineering personnel.

The Quality team at Meritor is a dynamic and customer-focused group who is dedicated to ensuring optimum progress at their production plants and aftermarket distribution facilities that are situated on 5 continents and in 19 countries.

They have their supplier network which is specially situated to be able to support the development of the business. Each and every regional team has internationally supported initiatives, quality systems and centralized in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program promotes a data-driven, fact-based approach to decision making within every aspect of the trade. The DFSS or likewise known as Design for Six Sigma ensures product reliability in every region. The team is even included transactional Green Belts who utilize Six Sigma tools to business methods and apply lean methods.
