

Forklift Spreader Bar

Spreader Bars for Forklift - Proudly operating ever since 1974, ELME Spreader AB is the largest independent spreader producer around the world. They have been a dedicated maker of spreaders for numerous applications like the swap bodies, trailers and handling of containers.

Engineering is done in-house by way of using all the latest FEM tools and CAD systems. The ELME company currently employs more than 125 personnel. Their spreaders are supplied to reach lift trucks, gantry, quayside, ship-to-shore cranes, stackers and straddle carriers all-over the world.

The product collection of ELME include a lot of spreaders designed for a variety of trailer and container handling operations. A few of their inventory consist of: Reach Stackers, Harbour Cranes, Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail Mounted and Rubber Tired Gantry Cranes and a huge array of attachments.

Production and manufacturing of ELME products are established in highly automated purpose designed factory. In the year 2008, they made one thousand one hundred fifty spreaders by using quality components to be able to ensure dependability and excellent standards. Major characteristics of ELME include design simplicity, market feedback and innovative modular spreader concept.
